**“UK/Japan Collaboration in Third Countries
(Infrastructure)”**
OCAJI International Construction Legal Seminar #1

We would like to invite you to a seminar co-hosted by OCAJI in cooperation with UK Export Finance entitled “UK/Japan collaboration in third countries (infrastructure)”. This presentation provides an excellent opportunity to better understand how UK and Japan collaborate in third countries on large infrastructure projects. We have invited experts across industries in the infrastructure sector to provide their perspectives and experiences on large scale projects in South East Asia including how to avoid potential claims / disputes, and learnings from the JICA MRT project.
