<b>MRICS:</b>	Member of the Royal Institution of Chartered Surveyors
<b>MCI Arb:</b>	Member of the Chartered Institute of Arbitrators
<b>Member:</b>	Society of Construction Law (Hong Kong, UK and Gulf)

Steven has 25 years' experience in the construction industry throughout the UK and also extends to working in Greece, Africa, Qatar, UAE, AND through South East Asia.

Steven has held Senior Commercial and Regional positions with Contractors and now works as an Executive Director for Quantum Global Solutions working throughout the Asia region.

Working predominantly in the Construction sector Steven has been involved in a wide variety of construction projects including highway construction and highway widening, flood defence schemes, power generation projects, water treatment and sewage treatment. In addition Steven has works with clients in the Hydrocarbon Industry dealing with entitlement matters.

Stevens commercial and contractual management skills, and his experience gained with the commercial difficulties and claims that Contractors deal with in construction industry has led him to specialise in the field of construction and entitlement claims, strategic commercial management and dispute resolution where and he works as a consultant in these fields.

Having harnessed this experience, Steven is able to liaise with and relate to clients contractual and commercial problems, analysing specific issues Steven provides opinion which considers his Clients and their employer's arguments. An excellent communicator with a down to earth approach means Steven is able to liaise with both staff and representatives from employers and the like.
